EDUCATION

2024 - 2026
SAKARYA UNIVERSITY
• Master of Science

2015 - 2020
INONU UNIVERSITY
• Bachelor of Science
• Electric-Electrical Engineering
• GPA: 2.96 / 4.0

SKILLS

- Prog. Languages: C#, JavaScript, SQL
- Platforms : .NET Core
- Software Architecture : .NET MVC
- Databases: PostgreSQL, MsSQL, MySQL
- Tools: Hyper-V, Trello, GitHub
- Effective Communication
- Critical Thinking
- Teamwork and Project Management

PROFILE

Throughout my career, I have developed both my technical knowledge and teamwork skills by working with various technologies. I have in-depth knowledge of platforms such as C#, .NET Core, .NET MVC and I effectively use technologies such as JavaScript, HTML, CSS and SQL in my projects.

My experience in Hyper-V server administration helped me strengthen my system administration skills. I actively use project management and backup tools such as Trello and Github.

WORK EXPERIENCE

- Talu Tekstil** 2020 - PRESENT
R&D Engineer
 - Production tracking system (MES) software development
 - Software and system design for product control system with RFID
 - Developing remote control software for smart lighting system
 - Software development for IoT-based devices to communicate with the cloud
 - Database optimization and connectivity
 - Software development to visualize productivity data of production tracking system
- Nur Engineering** 2018 - 2020
Project Engineer
 - Identifying and analyzing the software needs of companies
 - Developing and implementing solutions based on needs
 - Planning and managing project processes
 - Coordination with the team and communication with the customer
